Total Body Cleanse® - Significantly Reduce Pathogen and Toxin Load

To effectively address Toxic Body Burden of harmful toxins and infections, SOLUTIONS IE® has created Total Body Cleanse® comprising two revolutionary Intra-oral spray formulas called Total Silver® and Total Zeolite®. The most effective antimicrobial available, Total Silver® is anti-fungal, anti-viral and bactericidal, achieving complete kill against Candida, Rhino Virus and MRSA in less than 3 minutes.

A breakthrough in chelation, Total Zeolite® selectively and irreversibly binds and expels toxic heavy metals, neurotoxins and free radicals. Proven independently in urine challenge studies, Total Zeolite® has been shown to increase urinary output of mercury, lead and other toxins by over 300%. Total Silver and Total Zeolite together provide an unparalleled solutions for Total Body Cleansing.

Add rRNA-based nutraceuticals to provide exceptional nutrition.

Total Silver® – Anti-fungal, Bactericidal, Anti-viral

The Leading Immune System Formula Total Silver® has been proven capable of rapidly killing an enormous array of disease causing organisms; literally oxidizing the cell wall of gram positive and gram negative bacteria as well as naked virus, fungus, and all without damaging human tissue. When choosing an antimicrobial product, safety and efficacy are the only two factors that truly matter. Total Silver® provides 120 parts per million of uniquely energized silver molecules that range in size from 0.4 microns down to nanometer, which are suspended in wetter water®; a proprietary micronutrient transport medium that is 43% lower in surface tension, enabling a more rapid penetration through all biological systems. Prepare for Success. No single infection control protocol will provide a more effective treatment or prophylaxis than can be achieved using Total Silver®, proven the most powerful antimicrobial available to physicians today.

Total Zeolite® – Eliminates Heavy Metals, Neurotoxins, Free Radicals

Total Zeolite® Intra-oral spray represents the forefront in chelation technology. Zeolite is a naturally occurring crystal formed from volcanic ash over 300 million years ago. This crystalline compound has a cage-like, honeycomb structure, which is negatively charged and therefore attracts and captures harmful, positively charged substances. With each dose of Total Zeolite®, near countless numbers of sub micron size zeolite crystals enter the body as energized, negatively charged cages.

As these crystal cages travel through the blood stream, positively charged toxins attach to the zeolite crystal cages in an action similar to a magnet attracting iron filings. These toxin filled cages then pass naturally out of the body after only 5 to 7 hours. Total Zeolite® employs nano size and significantly greater number of zeolite crystals per dose providing 250 times the effective surface area of competing zeolite products.

Benchmark Studies: Total Zeolite® has been independently proven to increase urinary output from non detectable levels of Mercury, Lead and more in pre-provocation levels to over 5.53mcg/g of Mercury urine creatinine in post-provocation comparisons. According to the EPA, Mercury levels of 2.21mcg/g are considered highly toxic.
